Section H: Election of Review Procedure

When a Trust Claim is made, the Trust Claimant must elect whether the Trust Claim will proceed by Expedited or Individual Review. If the Expedited Review Process is chosen the Trusts can offer the Trust Claimant an amount up to the Expedited Review for the relevant Disease Level if the Trustees are satisfied that the Trust Claimant has presented a Trust Claim which meets the Presumptive Medical and Exposure Criteria. The Expedited Review Process is expected to be a quicker process than the Individual Review Process.

Trust Claimants may seek to establish a liquidated value for their Trust Claims which is greater than the Expedited Review Value by electing the Trust's Individual Review Process. However, the value of a Trust Claim that undergoes the Trust's Individual Review Process may be determined by the Trust to be less than the Expedited Review Value for the relevant Disease Level available in the Expedited Review Process, and in any event will not exceed the Maximum Value for the relevant Disease Level. The Individual Review process is expected to be a slower process than the Expedited Review process.

Important:

If a Trust Claimant whose Trust Claim is eligible for Expedited Review chooses to proceed by way of Individual Review, he will not be entitled to recover Actual Legal Costs in accordance with the EL Scheme TDP and the UK Asbestos Trust TDP unless the Trustees or the Expert determine that the value of their Established Claim is at least 10% higher than the Expedited Review Value for the relevant Disease Level in the Expedited Review Process.

Please note that for some categories of Trust Claimant, it is not possible to elect the Expedited Review Process. For details, please refer to Clause 2.4 of the UK Asbestos Trust and Clause 2.4 of the EL Scheme TDP.
